SOLES & SOULS

The Hands and Feet provide essential items to children and families with an open child welfare case so that they can know the support of a caring, loving community.

They strive to be the hands and feet that deliver resources to all children and families impacted by the child welfare system. They provide quality items to the families we serve so they know they are worthy; create a community of support for families who feel undeserving; believe that every person should know they are loved and supported despite their circumstances; believe that children should be given a voice in their story; and their team are the hands and feet that serve the most vulnerable children and families in our community.

At Soles4Souls - S4S, we turn unwanted shoes and clothing into opportunity, by keeping them from going to waste and putting them to good use – providing relief, creating jobs and empowering people to break the cycle of poverty.

From natural disasters to personal crises, donations equip individuals to rebuild their lives. Every contribution helps someone take that crucial step forward—whether it's returning to work, going back to school, or caring for their family. Their programs are focused on making a measurable impact on people and the planet. They collect used & new shoes and clothing to distribute to people in need.

They're also protecting the environment by putting used goods to good use, instead of wasting away in a landfill.
